MOVING: Phase Three Complete

### "Teaching Them to Observe..." Matt 28:20

Part of the "Great Commission" given by our Lord, as He was about to depart to go back to the Father, was to teach those that we win to observe all things that God has commanded us to do in His Word. The word "observe" here means to respect, follow, heed, keep, perform, abide by, comply with, conform to, and adhere to what God has commanded us. Teaching others is an awesome task, and one that God has asked me to take on in Manila as I train Baptist Bible College Asia students in the principles of God and how we are to observe them as Christians and ministry leaders in the Lord's service. As a missionary in constant need of your prayers, I ask you to pray for me as I prepare to leave for the field on January 15<sup>th</sup> to begin to fulfill this role in the Philippines.

*Louise Warner*, Missionary to the Philippines

Boxes and more boxes are stacked in the staging area as

Missionary Joni Webster and her crew get ready to pack our boxes in the 40' container to

be shipped to Manila. Then the hard part begins as the boxes are transported to the container and carefully packed to prevent major shifting during transport. Each box is carefully placed according to size, contents, and weight. Finally packed, the container heads for the dock and is loaded aboard the ship. That is a lot of work, folks! Thank you so much for your labor, crew! Now we look as the ship sails off into the sunset...to Manila.
